SASE
SOCIETY OF ASIAN SCIENTISTS & ENGINEERS

Texas A&M University - College Station

Dear Corporate Supporter,

On behalf of the Society of Asian Scientists and Engineers at Texas A&M University, I cordially invite you to be involved with our organization for the Fall 2026 - Spring 2027 academic semester.

Our mission is to help prepare Asian heritage scientists and engineers for success in the corporate world, celebrate diversity on campus and in the workplace, and provide opportunities for members to make contributions to the local communities. Throughout the school year, we strive to serve Texas A&M's talented students from a wide range of disciplines by creating an environment to enhance leadership and professional skills.

In short, SASE at Texas A&M University offers you and your company a way to reach out to a pool of talented individuals. In addition to the philanthropic events, your support will increase your company's presence and visibility within a motivated group of students from Texas A&M's large College of Engineering population.

SASE's Texas A&M Chapter was founded in 2013 with the goal of nurturing professional scientists and engineers along with seeking diversity. Our chapter has continued to grow and succeed through generous support from our corporate partners. Our leadership team looks to you and your company to help us further grow and expand our chapter, providing more opportunities to our members. One of the main focuses of our chapter is to specifically bring out more technological sponsors as well as sciences, tailoring to our member's main talents.

This corporate packet contains details about our chapter's meetings and events planned for the upcoming semesters and how your company can partner with SASE at Texas A&M University. We hope you will join us in developing successful innovators and future leaders.

Thank you for your time and consideration. I look forward to hearing back from you and anticipate the opportunity to build and maintain a strong relationship between SASE and your company.

Mandip Chhetri
Vice President External, 2025-26
sasetamu.vp@gmail.com | sasetamu.org

➤ Partnership Opportunities

Our chapter provides a large variety of events that ultimately follows the three pillars of SASE: professional development, community service, and celebrating cultural heritage. We are dedicated to bringing out the sense of community inside our chapter while also promoting and enhancing leadership and professional skills of our members. The following events are some highlights within our chapter.

General Body Meetings (GBMs)

Our general body meetings (GBMs) are bi-weekly events (depending on A&M's calendar) on Tuesday nights at 7:00 PM. During this time, your corporate representative(s) have approximately 45 minutes to present to our members, followed by a Q&A session and additional time to speak to the students individually after the meeting. What to present is of your choosing, such as an overview of your company and its opportunities for the members and/or a professional soft skills workshop.

Professional Development Workshops

As SASE is dedicated to guiding our future generations of industry professionals and leaders, our chapter offers opportunities for companies to provide professional development workshops. These workshops would follow a similar format and guidelines as General Body meetings, as company representatives may conduct a workshop of their choice. These workshops may include, but are not limited to, resume reviews, mock interviews, or networking workshops.

Within the previous years, both our general body meetings and professional workshops have averaged around 40 members. General body meetings are offered in person - oftentimes in the Zachary complex or online through Zoom. We, however, highly recommend having in-person networking experiences.

Intended GBM/Workshop Dates	
Fall 2026	Spring 2027
September 8th	Februaury 2nd
September 15th	Februaury 9th
September 22nd	February 16th
October 6th	Februaury 23rd
October 20th	March 23rd
November 3rd	March 30th
November 10th	April 6th
November 17th	April 13th

*If any of the dates to the left do not work out, we will be more than happy to find a date that works for all parties, preferably be on a Tuesday

Partnership Opportunities

Project Exposition

We are pleased to invite company representatives to participate in the SASE Exposition. In February 2027, SASE members will present technical projects they have developed over the past semester. Company representatives will serve as judges and provide valuable feedback and industry insight to our members. This event offers an opportunity to engage directly with SASE officers and general members while gaining exposure to emerging technical talent. The exposition provides a professional and inclusive environment that highlights the skills, creativity, and dedication of our members.

More Opportunities

Mock Interviews

We're excited to offer company representatives the opportunity to host mock interviews with our students following general body meetings or lunch-and-learn sessions in which the company participates. Scheduling will remain flexible to accommodate availability. These mock interviews provide a valuable chance for representatives to connect with students in a more relaxed, informal setting—fostering meaningful engagement and offering students a chance to sharpen their interview skills.

Lunch and Learns

We're excited to open the invitation for company representatives to participate in our monthly Lunch and Learn sessions. These events are held on Mondays from 11:30 AM to 12:30 PM (with flexibility based on availability, please recommend a Monday option you would want) and are designed for a smaller, more engaged group of club members. Each session includes approximately 45 minutes for your representative(s) to present, followed by a Q&A and informal networking time with students.

Presentation topics are entirely up to you—whether it's an overview of your company and career opportunities, a professional development workshop, or a deep dive into industry trends, we welcome your insights and expertise. Lunch and Learns offer a unique opportunity to connect with students in a relaxed setting, foster meaningful conversations, and showcase your organization's values and culture.

Mentorship Opportunities

We're thrilled to offer company representatives the opportunity to participate in our 1-on-1 mentorship program with members of SASE. Running throughout the 2026–2027 academic year, this initiative pairs professionals with students for monthly meetings focused on career development, technical skill-building, educational guidance, and soft skill refinement. For pairing of mentors and mentees, we would base it on members' interests, major, and career goals.

Mentorship topics are flexible and tailored to each student's goals, allowing representatives to share their expertise, offer personalized advice, and build meaningful connections with the next generation of STEM leaders. To see our previous mentorship structure, click on "Mentorship Opportunities"!

Demographics

Our team is built on having a diverse set of people and skills. Each of our members works hard to build themselves technically and professionally, and through our workshops and social events our team stands out as a prime pipeline for future leaders and stellar team members both academically and into their future workplace. Our member's success after college is a pride to our organization, and having returning members come and talk to our team about their experiences has been one of the highlights of our semesters.

We had over 100 paid members within our organizations, spreading across over a dozen different majors. Our member classification this previous year consists of mainly sophomores and juniors of which are eager for professional opportunities. Please note that Texas A&M has a program called ETAM. All freshmen engineers are classified as general engineers until their sophomore year in which they choose a specific major.

Year Classification

Major Demographics

Meet the Team

Our current team of officers represents a diverse range of majors and academic years, spanning from sophomore engineers to biomedical science seniors. Despite our varied backgrounds, we all share a common goal - to serve our members and promote the core principles of SASE. Several of our officers have been actively involved in SASE for multiple years, assuming different leadership roles throughout the organization. Our advisor, Dr. Pauline Wade, is an associate professor of practice under the computer science and engineering department at Texas A&M. Collectively, we extend a warm welcome to your chapter, anticipating the opportunities and partnerships that lie ahead. We look forward to this journey together and creating meaningful experiences for all involved.

General Body Meetings	\$2,300.00
Social Events	\$500.00
SASE Squads	\$300.00
National Conference	\$8,000.00
Fundraising	\$400.00
Merchandise	\$1,300.00
Miscellaneous	\$1,300.00
Total Fall Expenses	\$14,000.00

Spring 2027 Estimated Expenses

General Body Meetings	\$2,300.00
Social Events	\$300.00
SASE Squads	\$300.00
Banquet	\$4,000.00
Fundraising	\$400.00
Miscellaneous	\$600.00
Total Spring Expenses	\$7,900.00

Total Chapter Expenses **\$21,900.00**

Chapter Event Highlights

Professional Events: Our mentorship program serves as a cornerstone of our professional development, supporting over 20 students by fostering meaningful one-on-one connections. This initiative provides a structured environment for participants to gain personalized guidance on navigating their academic journeys and professional aspirations. To further bridge the gap between the classroom and the workforce, we facilitate mock interview sessions for 10+ students. These sessions allow our members to sharpen their technical communication and gain confidence in a supportive setting, ensuring they are well-equipped to excel in real-world recruitment and land their dream roles.

Community Service/Volunteer Events: SASE is a big advocate for helping those in the community, and as Aggies ourselves, we exemplify that character. Community service events provide an opportunity for our members to give back to the community and build on teamwork. Examples of our previous events include Habitat for Humanity (BUILD), STEMfest, games concessions, and TAMU's Big Event.

Socials: Social events help us build a strong and close relationship among our members and officers of SASE. In addition, it is a great opportunity for mentors and mentees to exchange ideas, goals, and advice for college and career success. We host a variety of events such as team-building exercises, networking socials, and more fun socials such as crafts, karaoke nights, and board-game nights. Additionally, we work with other student organizations to facilitate inter-organizational events such as Trivia Night which is planned by our collegiate committee and have historically brought over 100 participants across campus.

Unlike previous years, this year we're happy to announce that sponsorships no longer need to be mailed in in the form of a check and can be submitted by credit card to the Texas A&M Foundation.

1. First, navigate to <https://www.txamfoundation.com/give.aspx>

You should be met with this screen. If not, simply click the “Give Now” button located at the top right of the screen.

2. Check “Giving for Organization or Company?”
3. Check “Student Organization Gifts 500-99990”
4. Under “Gift Notes” Type manually:

949280-99999

How to Support (Continued)

The screenshot shows a web browser window with a red title bar. The page has three tabs: 'Gift Details' (active, with a checkmark icon), 'Billing Details' (with a storefront icon), and 'Payment Details' (with a dollar sign icon). The 'Gift Details' tab is selected, showing a summary table and a form for organization information.

Gift Type		One-Time
Designations	Student Organization Gifts	\$ 25.00

Organization Name (Required)

Email Type: (dropdown)
Email (Required):
Confirm Email (Required):
