

Education

Texas A&M University Graduating May 2026
B.S. Computer Science - Minor in Cybersecurity ***GPA: 3.9/4.0***
Relevant Coursework: Data Structures, Computer Architecture, Databases, Software Engineering, Computer Systems, Cybersecurity Risk, Computer and Network Security, Security Engineering, Machine Learning

Technical Skills & Certifications

Languages: Java, Python, C++, SQL, JavaScript, HTML/CSS, Ruby
Technologies: React, Tailwind, AWS, Virtual Machines, Git, Linux, Google Cloud, Crowdstrike Falcon, Elastic
Certifications: ExtraHop Network Security Essentials, ExtraHop Network Security Specialist, Security+, Network+

Professional Experience

Cybersecurity Engineer Intern May 2025 – August 2025
Visa *Austin, TX*
- Protecting Visa's software supply chain by developing a threat detection tool for malicious JavaScript libraries
- Streamlining security assessment workflows entirely by implementing an AI Agent using RAG and LangGraph
- Designing an Elastic Dashboard to aggregate and analyze 100+ leaked GitHub secrets for actionable insights
- Implementing defenses against AI data exfiltration by securing MCP servers and monitoring outbound data flows

Context-Aware Security Systems for UASs Researcher February 2025 – Present
NASA *College Station, TX*
- Researching and developing modern security solutions for protecting unmanned aircraft systems (UASs)
- Developing server side communications, pathing algorithms, and security controls for the prototype drone
- Testing and replicating attacks to successfully engineer a resilient defense systems to lead into more complex UASs

SOC Analyst December 2023 – Present
Texas A&M University *College Station, TX*
- Simplified privilege management of all user spaces within Texas A&M University in Elastic by using Terraform
- Developed an Elastic Synthetic Monitor to test over 100 domains linked to Texas A&M for potential vulnerabilities
- Investigated and resolved 100+ cases of suspicious student and faculty logins, enhancing account security
- Constructed dashboards to visualize and interpret over 100TB of data logs from Elastic SIEM tool

Projects

Web Developer – Society of Asian Scientists and Engineer's Website | *React* June 2025 - Present
- Maintaining and updating SASE's website to better reflect our goals, passion, and purpose
- Developing an officer archive to preserve alumni records and highlight SASE's leadership history
- Elevating site design and content to present a professional image, resulting in increased company sponsor interest

Full-Stack Engineer – Physics Problem Generator | *Ruby, Ruby on Rails, Heroku* May 2025
- Developing a physics practice problem generator web application for struggling students at Texas A&M University
- Working with a client professor to ensure the relevance and effectiveness of generated physics practice problems
- Implementing algorithmic problem generation, ensuring a diverse range of difficulty levels and question types

Full-Stack Engineer – Panda Express Point of Sales | *React, Tailwind, PostgreSQL* December 2024
- Developed a point of sales ordering system for Panda Express, optimizing intuitive and efficient customer service
- Simplified customer purchases through a modern, accessible, and intuitive GUI design through accessibility APIs
- Added proper admin authorization and functionality control to allow for different hierarchies of the POS system

Leadership & Activities

Secretary May 2025 – May 2026
Society of Asian Scientists and Engineers *College Station, TX*
- Responsible for scheduling events, outreach, handling meetings, and setting deadlines to ensure team alignment

Recreational Activities Director May 2024 – May 2025
Society of Asian Scientists and Engineers *College Station, TX*
- Responsible for initiating physical recreational activities to build a positive and engaging atmosphere

Baylor Scott & White Marathon Ambassador May 2024 – Present
Baylor Scott & White Hospital *College Station, TX*
- Responsible for raising money for the Mercy Project through referring runners to participate and volunteering at races
